SS9475SCM

500W laser three-in-one fixture, integrating super strong beam, rich patterns and large-scale washing functions.
Super beam: equipped with a 330mm super-large lens to achieve a strong and shocking beam effect. The illumination at 20 meters can reach 1.2 million lux. The sky-high light beam, the ultimate brightness, is clearly visible several kilometers away!
A hundred times super zoom: 0.4°-15°, high-definition patterns present and makes large-area washing easily.
Super prism effect: The combination of multi prisms and the superposition of rainbow wheel, allows designers to create unlimited light possibilities.
