

# NW8-X

## SS9683XLEM

Inspired by traditional Chinese culture, the Neptune Moving Head Wash Light NW8-X features an original dual gobo effect and rainbow backlight effect. Equipped with a brand-new generation of full-spectrum light source module, this moving head wash light can easily support multiple color mixing modules (RGBW, RGBWW). Its 19 lamp beads enable single-lamp independent control, and it boasts an impressive 17x zoom range with an optical angle of 3.5°-60°.

The new heat dissipation system adopts an innovative constant power reduction air duct design, ensuring the luminaire maintains efficient light output. Additionally, it is equipped with a digital color processing system and a 24-bit million-level dimming system, offering an ultra-wide color gamut and precise color temperature adjustment. The color rendering index (CRI) exceeds 85 across all common color temperature ranges. It is suitable for scenarios such as theaters, variety shows, and TV stations.
